FIND NEW ORE DEPOSITS IN BOSNIA, CROATIA

IRON ORE, BARITE FOUND IN BOSNIA -- Ljubljana Slovenski Porocevalec, 5 Sep 50

Nonferrous metal deposits have been found recently in the Kresevo-Fojnica district of Bosnia. Much iron ore has been discovered in Ljubije and Vares. The Vares iron mine will soon produce 30 million tons of ore per year. This mine will supply ore to the Zenica Ironworks, which will increase its capacity tenfold within a few years. Iron ore is also dug in Cevljanovici.

A new gypsum factory has been built in Volar. Large barite deposits near Kladusa are being exploited. Quartz is being dug near Buscvaca. Large deposits of clay are found near Prijedor, Busovaca, Flazuj, and Kobilja Glava. A new insulator factory is already in operation at Stup near Sarajevo.

DISCOVER HEMATITE IN CROATIA -- Ljubljana Slovenski Porocevalec, 21 Sep 50

Hematite deposits were recently discovered in the vicinity of Vojnic, southeast of Karlovac, Croatia. Iron and copper mines will be opened in the vicinity of Beslinac, which borders on Bosnia.

MASTER PRODUCTION OF SILICOTITANATE -- Belgrade Rad, 30 Aug 50

Engineer Logomerac recently solved the problems which previously prevented the production of silicotitanate in the iron alloys factory in Sibenik. This alloy is being manufactured for the first time in Yugoslavia.

TO BUILD FOUNDRY IN SIEENIK -- Ljubljana Slovenski Porocevalec, 28 Aug 50

In the near future, a new foundry will be constructed in Sibenik. The foundry, which will be equipped with electric furnaces and will produce various iron castings, is located near the old foundry. The new foundry will be 140 meters long and 40 meters wide.

NEW LJUBLJANA FOUNDRY IN OPERATION -- Ljubljana Slovenski Porocevalec, 19 Sep 50

The new foundry of the "Unitas" Metal Enterprise on Celovska Cesta (Street) in Ljubljana began operation on 16 September 1950. The building of a processing shop, galvanizing shop, and warehouses is scheduled to be completed by the end of 1951.

Partly because of the new foundry, which will produce plumbing and watersystem equipment and special stoves, the production of the enterprise is expected to double.
